PROFESSIONAL SUMMARY

Business Analyst with two years on process improvement and business transformation projects, working with cross-functional teams. Gathers requirements, maps processes, writes user stories and supports User Acceptance Testing (UAT) using Agile project management and Scrum. Builds Power BI dashboards for Data Visualization and reporting so stakeholders can see how a project is performing. Spent 2010 to 2025 in maintenance, purchasing and budget roles, so knows how operations teams work day to day. Currently studying for an MRes in Artificial Intelligence in Business at the University of Hertfordshire.

PROFESSIONAL EXPERIENCE

Business Analyst (Remote), 10Alytics

Mar 2025 to Present

- Apply Agile project management and Scrum in a Jira-based team, taking part in sprint planning, backlog refinement and sprint reviews.
- Improve process efficiency by mapping current and future-state processes, finding gaps and agreeing fixes with stakeholders.
- Define project KPIs and track them in Power BI so the team can see whether a solution is delivering what the business needs.
- Build Power BI dashboards for Data Visualization of project and business performance.
- Run requirements workshops, write Business Requirements Documents and user stories with acceptance criteria, and keep stakeholders aligned through regular Stakeholder Management.
- Work with developers and business users on User Acceptance Testing (UAT), from test planning to sign-off.
- Support Change Management by keeping stakeholders informed of progress and decisions through Slack, Zoom, Jira and Trello.

Maintenance Supervisor, Gramen Petroserve Nigeria Limited, Warri, Nigeria

Aug 2022 to Apr 2025

- Led a team of 10+ technicians and electricians. Set up a preventive maintenance schedule that cut equipment downtime by 20%.
- Standardised repair procedures and parts usage, which cut repair costs by 15% and improved safety and audit readiness.
- Successfully managed department budgets for facility upgrades, ensuring project completion within financial constraints while coordinating vendors and meeting quality and compliance standards.

Maintenance Officer, Gramen Petroserve Nigeria Limited, Warri, Nigeria

Aug 2017 to Aug 2022

- Coordinated routine inspections and servicing to keep 100% adherence to safety standards and statutory checks.
- Kept detailed maintenance records and inventory logs, which made parts counts more accurate and repairs faster.
- Researched and negotiated equipment rentals, saving \$10K a year.

Purchasing Officer, Gramen Petroserve Nigeria Limited, Warri, Nigeria **Nov 2011 to Aug 2017**

- Cut procurement costs by 15% through vendor consolidation, competitive bids and bulk purchasing.
- Managed supplier relationships and on-time delivery, and lined up purchasing plans with maintenance schedules.
- Analysed market trends to recommend cheaper alternatives that kept the same quality.

Warehouse Officer (Post NYSC), Gramen Petroserve Nigeria Limited, Warri, Nigeria **Oct 2010 to Oct 2011**

- Received, inspected and recorded incoming shipments, working with procurement, logistics and transport teams.
- Ran regular stock audits and reconciled discrepancies to keep inventory levels accurate.
